

Redmine - Defect #39137

redmine with ruby 3.0 and up cannot be installed due to unsupported pg-1.2.3. Need to upgrade to at least pg-1.3.x

Target version:		Affected version:	5.0.6
Resolution:	Duplicate		
Description Installation on windows with ruby 3.0 and up is not possible. The problem is pg-1.2.3, which with ruby 3.0 does not support "fat plugin with .dll". This has been fixed in pg-1.3.0 (see https://github.com/ged/ruby-pg/issues/365#issuecomment-1019850780). Moving to pg-1.3.x series enables again to easy install in windows environment with ruby 3.0 and 3.1, just as 2.7.8. Currently redmine on windows cleanly installs only with ruby 2.7.8 :-(Please upgrade dependent pg gem. Thank you!

Oej... Sorry
Please close.
Only now i have noticed that upcoming redmine 5.1 will have pg 1.5 series...
Sorry!
