

Redmine - Defect #3949

custom ticket status can not be shown.

2009-09-30 10:57 - yang mike

Status:	Closed	Start date:	2009-09-30
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Invalid		
Description Hi. I would like to custom the ticket's status as a manager by the "ticket status". what I did is: 1, delete the all default status but the "new". 2, create new some statuses and save. 3, login as a user, and create a new ticket. 4, Select the status. There is only one status taht I can select, which is setted as default one. PS: I added some custom fields before I do above. something wrong with my setting?			

History

It sounds that you have forgot to define a workflow.

#2 - 2009-10-02 16:54 - Jean-Philippe Lang

- Status changed from New to Closed
- Affected version (unused) deleted (0.8.5)
- Resolution set to Invalid
- Affected version deleted (0.8.5)
