Category:	Issues filter	Estimated time:	0.00 hour
Target version:		Affected version:	5.1.0
Resolution:			
Description			
<p>When i try select parent issue - redmine filter parent lissue list same state as current issue. If current issue closed - list only closed issues in parent list if current issue open - list only open.</p> <p>looks not good. I want set parent any parent ticket.</p> <p>Yeah, maybe attaching opened child ticked to closed parent ticket - bad, i agree, but attaching closed child ticket to opened parent - looks fair.</p>
