Description

In the description of a project it is possible to add images and tables (as in other fields in Redmine). For instance:

```
| !{width:100px}https://bla.number.co/attachments/download/1207587/Documents.jpg! | The referenced
 files are stored here. https://p1.number.co/  |
```

When that is viewed from the "Overview" tab of the project, it displays correctly.

When viewed on a page that shows all projects, ie. https://rm.number.co/projects, the table render fails.
