- File *zh.trunk.yml* added

Thank you for posting the translation. I have generated a patch file ([39551.patch](#)) from your zh.yml file.

If you have time, could you also translate the strings added in Redmine 5.1? Please see the attached [zh.trunk.yml](#).

#2 - 2023-11-15 10:51 - lei shi

- File *zh.trunk.yml* added

The translation is completed. Since version 5.1 has not been installed, the actual effect has not been observed for the time being. I just translated based on literal understanding. Please correct me if there are any errors or inaccurate descriptions!

- Subject changed from *Chinese translation completion of untranslated strings in Redmine v5.0.6* to *Chinese translation update for 5.1-stable*
- Assignee set to *Go MAEDA*
- Target version set to *5.1.1*

Thank you for translating all the strings into Chinese!
I will check the file and then commit it.
