Target version:	2.3.0			
Resolution:	Fixed			

Description
An Ajax File Upload module with progress bar for large file upload should be a great feature, since we need to upload large release files.

Merged ajax_upload branch (#3957).

History

#1 - 2010-03-03 12:07 - Dave Lowndes

+1

A file repository for (software) project management tool can expect large files (design mockups, release archives) so something other than the scary browser "loading" for 15mins while a large file uploads would be ideal.

#2 - 2011-03-24 10:51 - Toshi MARUYAMA

- Category set to UI

#3 - 2012-05-22 23:23 - ex vito

Note that #5889 seems to be a dup.

#4 - 2012-05-23 14:24 - Etienne Massip

- Target version set to Candidate for next major release

#5 - 2012-06-27 13:28 - Anton Gillert

+1

#8 - 2012-11-24 13:05 - Jean-Philippe Lang

- Subject changed from Ajax File Upload Module for Large File Upload to Ajax file upload with progress bar

- Category changed from UI to Attachments

- Target version changed from Candidate for next major release to 2.3.0

#9 - 2012-12-11 10:12 - Etienne Massip

This feature has been implemented and merged into trunk with [r10977](#) but would require some feedback from the community if you can to make sure it doesn't break with some browser versions we've not been able to test with.

Thanks for your time if you can!

Hi Etienne,

I just tested [r10989](#) with Internet Explorer 9.0.8 Update 9.0.11.

In my upload, I haven't seen any Ajax-Upload mechanismn. The preview of my attachment hasn't displayed any image. The same after submitting this attachment (See Screenshot).

// EDIT
I tried this again with some 12 MB Upload Files, but there wasn't any Progressbar, just the loading Symbol from IE itself.

There is an issue since few days on trunk with preview which doesn't show when creating a new issue but it's not related to this feature implementation.

I think I forgot to mention some important precision: it won't work with IE8 or IE9 because these browsers do not support the File API, so Redmine degrades gracefully to the standard upload-on-submit behavior in this case =)

IE10 should support it but unfortunately I don't have any IE10 to test :|

Thank you for testing anyway !

#12 - 2013-01-12 09:04 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Fixed

Ajax upload tested OK with IE10.0.
