Redmine - Defect #39714

Query grouping filter not working for custom field relations

2023-11-23 13:02 - Alexander Meindl

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:	Marius BĂLTEANU		**% Done:**	0%
Category:	Filters		**Estimated time:**	0.00 hour
Target version:	5.1.1			
Resolution:	Fixed		**Affected version:**	5.1.0

Description

With https://www.redmine.org/projects/redmine/repository/svn/revisions/22177/diff grouping filter for relations do not work correctly. The name for group is wrong.

An example:

- create a custom field for users (any format)
- create another a custom field for issues with format user
- go to issue list and open select box with available filters

In the list of available filters there is a missing label for the group if cf-relation to the issue.

The problem is, that another regular expression is used first. Changing the order fix the problem.

The attached patch fixes the problem.
