Target version:		Affected version:	
Resolution:			
Description			
<p>When browsing through the [plugin list](https://www.redmine.org/plugins) I noticed that some pages were throwing a 500 error, for example pages 9 and 10:</p> <p> clipboard-202311301555-2ef.jpg</p> <p>Here I am, contacting my Redmine admins :)</p> <p>I've written a small bash script to check all the pages that are returning 500:</p> <pre>#!/bin/bash # Base URL base_url="https://www.redmine.org/plugins?page=" # Loop from 1 to 112 for i in {1..112} do # Construct the full URL full_url="\${base_url}\${i}" # Perform the HTTP request and capture the status code status_code=\$(curl -o /dev/null -s -w "%{http_code}\n" "\$full_url") # Check if the status code is 500 if ["\$status_code" -eq 500]; then echo "Page \$i returned a 500 status code." fi done</pre> <p>When ran from my computer, these pages are returning 500:</p> <p>Page 9 returned a 500 status code. Page 10 returned a 500 status code. Page 21 returned a 500 status code. Page 25 returned a 500 status code. Page 35 returned a 500 status code. Page 65 returned a 500 status code. Page 67 returned a 500 status code. Page 87 returned a 500 status code. Page 90 returned a 500 status code. Page 98 returned a 500 status code. Page 105 returned a 500 status code. Page 112 returned a 500 status code.</p>
