Target version:	6.0.0	Affected version:	5.1.1
Resolution:	Fixed		
<b>Description</b> There is a feature that highlights input fields with a red border when a validation error occurs. An issue was identified with the 'Description' field, set as a mandatory input. When a validation error is triggered in this field, the red border is incorrectly positioned.   This problem does not occur with 'Long text' format custom fields. The notable difference is that the 'Description' field contains a 'span#issue_description_and_toolbar' element, which causes the red border to be displayed around the span tag, unlike in custom fields.

The issue can be resolved by modifying the CSS as follows:

```
diff --git a/public/stylesheets/application.css b/public/stylesheets/application.css
index b92a34d68..3ef6e6180 100644
--- a/public/stylesheets/application.css
+++ b/public/stylesheets/application.css
@@ -905,7 +905,7 @@ label.block {
     color: #bb0000;
 }

-.tabular label.error + * {
+.tabular label.error + *:not(span), .tabular label.error + span div.jstBlock {
     border: 1px solid #bb0000;
 }
```
