Description

I like to use News to communicate with the my client. It is useful to link to the milestone page in the news item. If I use standard wicki markup eg

[[Contact]]

it looks great on the web but not in the email. Would be cool if it was converted to the appropriate URL in the email

History

- #1 - 2011-11-19 14:48 - Jean-Philippe Lang
- Subject changed from Wiki links should be converted to URLs when sent in emails like News items to Wiki links should be converted to URLs in plain text emails
 - Category changed from News to Email notifications
- Only applies to plain text emails. Works OK for HTML emails.
