

Redmine - Feature #39882

Highlight selected version on the Roadmap view

2023-12-20 02:59 - Mischa The Evil

Status: New	Start date:

Category: Roadmap	Estimated time: 0.00 hour
Target version:	
Resolution:	
Description It can be helpful to have the selected version's heading highlighted on the Roadmap (versions#index) view. This would also be in line with what we currently already have for selected issue journals, forum topic replies (i.e. messages) and wiki page headings. This proposed highlight could have a border-radius dependent of #39880 .
