

Redmine - Defect #39932

Incorrect position of "Edited" mark in issue notes with h4 headings

2023-12-24 11:17 - Yasu Saku

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:	5.1.2	Affected version:	5.1.0
Resolution:	Fixed		

Description

"Edited tag" position is incorrect after issue note update, but it is correct after the page is reloaded.

Steps to reproduce:

1. Edit the existing note using the Edit Note button in the issue history.
2. Update note containing H4 tags.

journal_edit.png

My Environment:

```
Redmine version      5.1.1.stable
Ruby version         3.2.2-p53 (2023-03-30) [x86_64-linux]
Rails version        6.1.7.6
```

Proposal:

To resolve this issue, I believe it might be sufficient to make corrections to the following sections.

```
diff --git a/app/views/journals/update.js.erb b/app/views/journals/update.js.erb

- Status changed from New to Confirmed

Thank you for reporting and fixing the issue.

But I think that adding note-header class to the h4 element is enough to target the correct h4 element. It is less likely to break if there are minor changes in the HTML structure.
