Add Redmine::Plugin proxy method for
Redmine::Acts::Attachable::ObjectTypeConstraint.register_object_type

2023-12-27 07:54 - Mischa The Evil

Status: Closed
Priority: Normal
Assignee: Marius BĂLTEANU
Category: Plugin API
Target version: 5.0.8
Resolution: Fixed

Description
Following [#39862] I wonder: wouldn't it be neater to add a dedicated proxy method to Redmine::Plugin (something like Redmine::Plugin#attachment_object_type) for Redmine::Acts::Attachable::ObjectTypeConstraint.register_object_type? This way plugin authors don't have to reach into Redmine core internals when implementing AAA for their own plugin models themselves. How do other people think about this?
