**Description**

This patch simplifies the Gemfile by removing the :platforms constraints from the database adapter gems.

Since Redmine used to support JRuby, the Gemfile included platform-specific dependencies to use different database adapters for JRuby and MRI Ruby. However, the database adapter gems for JRuby were removed from the Gemfile in r16517, making these platform-specific conditions no longer necessary.

**Associated revisions**

**Revision 22578 - 2023-12-30 05:13 - Go MAEDA**

Remove specific platform constraints for database adapter gems (#39971).

**History**

**#1 - 2023-12-30 05:13 - Go MAEDA**

- *Status changed from New to Closed*

- *Assignee set to Go MAEDA*

Committed the patch in r22578.
