Redmine - Feature #40149

Drop deprecated Redcarpet based Markdown formatter

2024-01-30 04:48 - Go MAEDA

Status:	Closed		**Start date:**

Category:	Text formatting		**Estimated time:**	0.00 hour
Target version:	6.0.0			
Resolution:	Fixed			

Description

In Redmine 5.1, the Redcarpet-based Markdown formatter is deprecated and CommonMark Markdown is the default instead.

Since CommonMark Markdown has been used by users without any particular problems, I think we can discontinue the deprecated Redcarpet-based Markdown.

- Resolution set to Fixed

I have committed the patch in [r23153](#) and removed the Redcarpet-based Markdown formatter.

As a result, starting with the upcoming Redmine 6.0, Redmine will have only one Markdown formatter, CommonMark Markdown. If you have selected "Markdown" in the "Text formatting" setting, it will be migrated to "CommonMark Markdown".
