Description We have added custom fields but there is no possibility of viewing them in the users list. I think this would be a great feature. It would also be good to modify the users list. Currently you can only filter by status.

- Category changed from Accounts / authentication to Administration
- Status changed from Needs feedback to Closed
- Resolution set to Fixed

The ability to filter users by user attributes (first/last name, last login, admin flag, email addresses, etc.) and by user custom field(s) values, and the ability to add the respective columns, on the admin user list is implemented via issue [#37674](#) (Redmine [5.1.0](#)).
