History

#1 - 2024-02-21 16:50 - Bernhard Rohloff

- Assignee changed from Jean-Philippe Lang to Go MAEDA

I think Go MAEDA is more active in the project and also has permissions to remove the page.
Let's see if he can remove it.

[Bernhard Rohloff](#) and [Go MAEDA](#) - if you will grant me permissions I could directly do clean up without creating this kind issues. :)

Just another one potential SPAM:

[prince raj](#) user was created and this user was immediately used to create strange page:

Whole list of this user's activity could be found on his profile page.

#4 - 2024-02-26 21:00 - Marius BĂLTEANU

- Status changed from New to Closed
- Assignee changed from Go MAEDA to Marius BĂLTEANU
- Resolution set to Fixed

I've cleaned up those pages, thanks for pointing this out.

I gave you the Contributor role, please check if you have required permissions.

[Marius BĂLTEANU](#) It looks like I have permissions to rollback revisions to old one but I have no permissions to delete pages and have no access to user management.

[Go MAEDA](#), are you agree to add the delete wiki page permission to Contributor role?

and have no access to user management.

Unfortunately, this permission is available only for Administrators, it cannot be added to roles.

I've added #40320 for this permission.

I've added #40320 for this permission.

[Marius BĂLTEANU](#) It is too dangerous.

I would propose you to create the "SPAM Cleaner" role, grant it special permissions and add my user directly to the project by this role. So I will inherit default permissions + special.
