- Status changed from New to Closed

- Resolution set to Duplicate

- Affected version deleted (3.4.6)

Editing attachments of objects (such as issues, wiki pages, projects, ...) is generally governed by the permissions on the objects the attachments are attached to. As such, if a user can edit an issue, they can also edit the issue's attachments.

If you consider this issue a request for this feature, it's a duplicate of [#4362](#).
