Target version:		Affected version:	
Resolution:	Wont fix		
Description With redmine 0.8.4 I was able to put an image in a wiki page and make it a link to an url with this code: <code>"!model_800.png!":http://lifeserver/attachments/21/model.svg</code> With redmine 0.8.5 the same code don't display the image but just the link with this text "!/attachments/download/19!", which is the link of the image I want to display without the filename.

Revision 2962 - 2009-10-24 14:19 - Jean-Philippe Lang

Adds a test for attached image inside a link (#4033).

History

#1 - 2009-10-24 14:07 - Jean-Philippe Lang

- Status changed from New to Closed
- Resolution set to Wont fix

The correct syntax is without the double quotes:
