Target version:		Affected version:	5.0.1
Resolution:	Invalid		
<div>Description</div> <div>Hi everybody</div> <div>I upgraded redmine from version 4.1.0 to 5.0.1 on windows 10 (created a new server and migrated). When migrating plugins with data from I get the following error! (bundle exec rake db:migrate RAILS_ENV=production)</div> <div><ul style="list-style-type: none">• Invoke db:migrate (first_time)• Invoke db:load_config (first_time)• Invoke environment (first_time)• Execute environment<div>rake aborted!</div><div>NameError: uninitialized constant Redmine::Hook</div><div>Please help me!</div></div>			

History

#1 - 2024-03-02 12:36 - Holger Just

- Status changed from New to Closed
- Resolution set to Invalid

To quote the [README of the redmine_extensions gem](#):

☐☐ This gem working only with Redmine 4.x

The gem is required by one of your plugins which is thus not compatible with Redmine 5.0. This is not something we can fix here. Please contact the plugin author for support.
