

Redmine - Defect #40448

Accessing relations during issue destruction

2024-03-25 13:19 - Guillaume Herpin

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Rails support	Estimated time:	0.00 hour
Target version:		Affected version:	5.0.8
Resolution:			
Description			
<p>Hello,</p> <p>My goal is to propagate the deletion of an issue to change a custom field of the linked issue. So, I intercept the destruction of an issue.</p> <p>I am encountering a problem with my script. During the destruction of an issue, I am unable to access the issue's relations.</p> <p>Is this a known and unsolvable problem due to the framework's architecture, or am I just handling it very poorly?</p> <p>Thank you in advance for your help.</p>
