#### Description

Current URLs for a project's document is:

example.org/documents/1

Paths to documents should follow the general URL scheme and, also it would be better to use the document's title in the URL instead of the document id. It should be:

example.org/projects/PROJECT/documents/DOCUMENT\_TITLE

#### History

##### #1 - 2009-10-26 00:37 - G N

- Status changed from *New* to *Resolved*

Since it's not only the documents that follow the URL scheme above, I assume that this is intentional, aka a feature, so I set the bug to resolved.

##### #2 - 2009-11-11 17:31 - Jean-Philippe Lang

- Status changed from *Resolved* to *Closed*

- Resolution set to *Wont fix*

Indeed.
