

Redmine - Defect #40630

PDF Export generated internal error when an image is just after a bullet in a bulleted list

2024-04-24 09:19 - Pascal FINET

Status:	Needs feedback	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	PDF export	Estimated time:	0.00 hour
Target version:		Affected version:	5.0.3
Resolution:			
<div>Description</div> <div>When a wiki page has * !image.png! blabla generating a PDF will make an internal error. but when the wiki page has * blabla !image.png! , it works fine. I'm using:<ul style="list-style-type: none">• Redmine 5.0.3.stable• Ruby 2.6.10-p210• Rails 6.1.7• Database Mysql2</div>			

History

#1 - 2024-09-02 07:39 - Go MAEDA

I cannot reproduce the issue with Redmine 5.0.9.

#2 - 2024-09-02 14:50 - Holger Just

- Status changed from New to Needs feedback

Please provide additional details which allows us to reproduce this issue, including:

- A log entry from Redmine's log showing a full stack trace.
- The list of your plugins (if any)
- A full reproducible example of textile which shows the error.

Please also update your Redmine to at least the latest 5.0.x version (right now [5.0.9](#)). There were quite some bug fixes since then and your issue might already be resolved.
