Target version:			
Resolution:	Invalid		

Description

Dear Redmine support team,

I use Redmine 5.0.4.stable version. I installed "Issue Reminder" plugin on Redmine. When i click "Remind assignee now" i recieve e-mail notification. But when i click to "Remind someone later" and remind manually i don't receive email notification. You can see screenshoot on attachment. Please help me to resolve problem.

History
