Redmine - Defect #4072

Custom query and "for all projects".

2009-10-21 17:52 - S Reid

Status:	Closed		**Start date:**	2009-10-21
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:				
Resolution:	Duplicate		**Affected version:**	0.8.4

Description
If I create a new custom query (e.g. status == open, version != backlog) with "for all projects" ticked, as soon as I save it, the second filter (version != backlog) is lost. It's not applied to the list of issues, and if I edit the custom query, the second filter is missing.   This does not happen if I do it in 2 stages. I.e. create the custom query without ticking "for all projects" and save it. Then edit it, enable "for all projects" and save it again.

History

#1 - 2009-10-22 10:59 - S Reid

Also, if I then try to make the custom query public, I then also lose my second filter (target version). If I try to add it back by editing the customer query, I find that "target versino" is not on the filter drop down list. I then have to delete to query and start again.
