Target version:			
Resolution:	Invalid	**Affected version:**	

Description

We are trying to parse the issues using python-redmine module in python, But we are not able to fetch the **tags** field.

We are able to filter the tags but not able to fetch the tags of specific issue.

```
redmine.issue.filter(tags="tag_name")
```

History

#1 - 2024-06-04 21:53 - Marius BĂLTEANU

- Status changed from New to Closed

- Resolution set to Invalid
