Revision 3239 - 2009-12-24 19:25 - Eric Davis

Project#activities should check all overridden activities, not just active ones.

Fixes #4084

History

#1 - 2009-10-22 19:50 - Jean-Philippe Lang

Please read [[SubmittingBugs]] and give steps to reproduce.

#2 - 2009-10-23 18:00 - Anonymous

- File *projectSettingsActivities1.jpg* added

- File *projectSettingsActivities2.jpg* added

After setting project specific activities like on *projectSettingsActivities1.jpg* (one is active). I expect to see only one option while logging time (*projectSettingsActivities2.jpg*).

I think it is confusing because to get expected behavior I have to disable all activities on Administration -> Enumerations page.

#3 - 2009-10-27 01:51 - Eric Davis

- Status changed from New to 7

- Assignee set to Eric Davis

I'll take a look at it.

#4 - 2009-12-14 02:57 - Mischa The Evil

- File *projectsettings_activities-3_after-reactivation-and-save.jpg* added

- File *enumerations.jpg* added

- File *projectsettings_activities-1.jpg* added

- File *projectsettings_activities-2_beforesave.jpg* added

- File *projectsettings_activities-2_aftersave.jpg* added

- File *spendtime.jpg* added

I am able to reproduce the issue.

My environment:

```
[mischa@server xxx]# svn info

```

```
[mischa@server xxx]# mysql --version
mysql Ver 14.7 Distrib 4.1.20, for redhat-linux-gnu (i686) using readline 4.3
```

Steps to reproduce (with screenshots):

1. My activity-enumerations are set like:

2. By default the random project's (here *child2-1*) activities settings look like:

3. On the random project (here *child2-1*) I want to disable the Development-activity, thus I deselect the checkbox for that activity. **Before** I click "save" the screen looks like:

4. **After** I've clicked "save" the screen looks like below (notice the removed system activity tick):

If I now take a look at my global activity-enumerations they still are configured as in step 1's screenshot.
5. Although I have disabled the Development-activity in steps 3 and 4 I still see the activity in the *spendtime*-view's activities-dropdown:

6. Also: when I now go back to the project's activities settings, re-activate the Development-activity and "save", I get the following config:

The only way to get the removed system activity tick back is to **reset** all the project's activities using the dedicated text-button.

Feedback from the logs:

The logs which are written during steps 3 and 4 look like:

```
Processing ProjectsController#settings (for 192.168.1.2 at 2009-12-14 07:08:31) [GET]
Parameters: {"action"=>"settings", "id"=>"child2-1", "controller"=>"projects"}
Rendering template within layouts/base
Rendering projects/settings
```

Completed in 1293ms (View: 1214, DB: 47) | 200 OK [http://xxx/projects/child2-1/settings]

Processing ProjectsController#save_activities (for 192.168.1.2 at 2009-12-14 07:08:47) [POST]

Parameters: {"enumerations"=>{"8"=>{"parent_id"=>"8", "active"=>"1"}, "9"=>{"parent_id"=>"9", "active"=>"0"}}, "commit"=>"Save", "action"=>"save_activities", "authenticity_token"=>"RemovedForSecurityReasons", "id"=>"child2-1", "controller"=>"projects"}

Redirected to http://xxx/projects/child2-1/settings/activities

Completed in 78ms (DB: 35) | 302 Found [http://xxx/projects/child2-1/activities/save]

Processing ProjectsController#settings (for 192.168.1.2 at 2009-12-14 07:08:47) [GET]

Parameters: {"action"=>"settings", "id"=>"child2-1", "controller"=>"projects", "tab"=>"activities"}

Rendering template within layouts/base

Rendering projects/settings

Completed in 508ms (View: 443, DB: 42) | 200 OK [http://xxx/projects/child2-1/settings/activities]

Hope this is enough information to further debug this issue. If any more info is required to fix this issue, please let me know. I'm happy to provide further details where needed.

Regards, Mischa.

1. Although I have disabled the Development-activity in steps 3 and 4 I still see the activity in the spenttime-view's activities-dropdown:
spenttime.jpg

That's a bug. I suspect it's mixing the system Development activity into the project one.

*The only way to get the removed system activity tick back is to **reset** all the project's activities using the dedicated text-button.*

That's the correct behavior.

Thanks Mischa, that helps pinpoint the issue. I'll try to have it fixed for 0.9.

#6 - 2009-12-23 21:06 - Jean-Philippe Lang

- Priority changed from Normal to High

#7 - 2009-12-24 19:23 - Eric Davis

- Status changed from 7 to Closed

- % Done changed from 0 to 100

- Resolution set to Fixed

Fixed in r3239. The project was checking for only active project level activities that overrode the system activities. In Mischa's example, this meant that the Project didn't see the project level "Development" so it used the system one.
