<b>Category:</b>	Gantt	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Resolution:</b>	Wont fix		
<b>Description</b> I tried to apply change_to_right_and_left_resizable_panel_v2.patch in <a href="#">#20481</a> to my Redmine 3.3.3, but seems the files content have been changed, and it can't be patch directly even though I modified the file path in patch file to be corresponding with the path of my redmine installed. then, I tried modified my redmine files' code according to the modification content in this patch file, and restart redmine(subversion,mysql, apache), but left side of gannt is not resizable yet. seems this modification is not suitable for Redmine 3.3.3.			

History

- Tracker changed from Patch to Feature
- Status changed from New to Closed
- Resolution set to Wont fix

Redmine 3.3.x is not supported anymore any won't receive any updates anymore. You should upgrade to a newer Redmine version, at least [5.0.9](#). Here, the feature added in [#20481](#) will be available without any custom changes.
