Target version:		Affected version:	
Resolution:			
Description			

History

#1 - 2024-07-03 15:04 - Holger Just

- Status changed from New to Closed

You can't create projects on <https://www.redmine.org> since this is the issue tracker for the Redmine software itself. To use Redmine to manage your own projects, you can install it on your own server. See [RedmineInstall](#). If you do not want to maintain your own server, you can also use one of the commercial providers of hosted Redmine. See [CommercialOfferings](#) for some links.
