| **Status:** | Confirmed | | **Start date:** | |
| **Priority:** | Normal | | **Due date:** | |
| **Assignee:** | | | **% Done:** | 0% |
| **Category:** | Groups | | **Estimated time:** | 0.00 hour |
| **Target version:** | | | | |
| **Resolution:** | | | **Affected version:** | 5.1.3 |

**Description**

Having some projects with subprojects created like those from tests

will show up in the group settings with checkboxes as a tree (at least when looking at the html code):

The unexpected behavior has two different occurrences.

1) Checking and unchecking a subproject causes it to be unchecked when double checking the parent project.

2) Doing the same as in 1) and try to uncheck the parent project will keep it locked until all subprojects are checked.

**Note:** RM version 5.0.9 is also affected.

**History**

**#1 - 2024-07-03 11:33 - Liane Hampe**
