Category:		Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Invalid		

**Description**

I have downloaded BITNAMI stack to set up Redmine on a new server. Everything went OK until I started to set up email configuration. In the email.yml settings, I have specified as per the instructions but redmine not started after that. Got error trace as below: I used the authentication as :login, :none, login (without colon), none (without colon) but I get the same error.

When I used 0.7, I used to do it in environment.rb, it works perfectly.

Please advise.

Setup configuration: =====

Ruby version 1.8.7 (i686-linux)  
RubyGems version 1.3.4  
Rails version 2.1.2  
Active Record version 2.1.2  
Action Pack version 2.1.2  
Active Resource version 2.1.2  
Action Mailer version 2.1.2  
Active Support version 2.1.2  
Edge Rails revision unknown  
Application root /opt/redmine-0.8.5-0/apps/redmine  
Environment development  
Database adapter mysql

- Starting Mongrel listening at 0.0.0.0:3002

History

#1 - 2009-10-24 12:59 - Jean-Philippe Lang

- Status changed from New to Closed
- Affected version (unused) deleted (0.8.5)
- Resolution set to Invalid
- Affected version deleted (0.8.5)

Your email.yml doesn't seem to be a valid YAML file.

Please fix it.
