

Redmine - Defect #41

revision links and auto linking URLs conflict

2007-04-11 11:00 - Peer Allan

Status:	Closed	Start date:	
Priority:	Normal	Due date:

Target version:		Affected version:	
Resolution:			
Description			
If you post a URL in an issue note that has r# in it the URL breaks.			
URL as entered in note: http://server1/controller/page			
Is rewritten in HTML as: http://serve 			
The options to fix, from my perspective, could be:			
1) do not add the revision links to URL			
2) change the criteria for revision links to require a space before the "r", e.g. '/^sr(d*)/' (did not test this)			
Great product, thanks for the hard work!
