

Redmine - Feature #41180

Tracker 'closed' -> Status 'closed' automatically

2024-08-22 08:09 - Michael Koch

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues workflow	Estimated time:	0.00 hour
Target version:			
Resolution:	Wont fix		
Description			
Hi			
I use several Trackers that indicate that the issue is 'done/finished'.			
Is there an option that the Status automatically switch to a 'closed' issue Status?			
The reason is simple:			
<ul style="list-style-type: none">I don't want to modify always to fields in the issuethe Overview remains issues that are already solved			
It would be great if somebody has an idea.

The feature that changes the status when the tracker of an issue is changed to a specific one is a specialized feature tailored to your use case, and I believe it might be difficult to find other uses for it.

#2 - 2024-11-10 08:44 - Go MAEDA

- Status changed from New to Closed
- Resolution set to Wont fix
