Description

Hello,

I upgraded my redmine from 2.6 to 5.1.

I miss some plugin , especially Redmine ldap sync.

I used it for sync user like this :

```
/usr/bin/rake -f /var/www/html/redmine-2.6/Rakefile --silent redmine
:plugins:redmine_ldap_sync:sync_users RAILS_ENV=production
```

it seem to not be supported by v5.x

There is something to replace it ?

Thank you 4 your help.
