Redmine - Feature #41272

Improve tooltip positioning for thumbnails

2024-09-19 05:07 - Jens Krämer

Status:	Closed		**Start date:**

Target version:	6.0.0			
Resolution:	Fixed			

Description

Currently the tooltip of thumbnails belongs to the a tag, and the tooltip is placed accordingly above that, covering part of the thumbnail image. This leads to the usability issue of an unclickable area where the tooltip was rendered over the image, even if the tooltip is not shown anymore.

The attached patch fixes that by moving the title attribute to the img tag, which results in tooltip placement above the thumbnail image.
