

Redmine - Defect #4129

Anonymous users can get all user's information

2009-10-28 22:00 - Lluís Vilanova

Status:	Closed	Start date:	2009-10-28
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Accounts / authentication	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Duplicate		
Description			
<p>Everybody (even anonymously) can crawl on the '/account/show/<number>' path, getting a list of:</p> <ul style="list-style-type: none">- all user names- on which day did they create their account- email (if public) <p>I think redmine should show the 404 page when accessing '/account/show/<number>' if the accessor sees no activity for that user.</p> <p>This check would solve all the cases: anonymous accesses as well as logged in users which should not know anything about other users (either not collaborating in a project or not in a public project).</p> <p>This sounds easy to code, but I have no ruby knowledge; sorry.</p> <p>Thanks</p>

Associated revisions

Revision 2986 - 2009-10-29 19:09 - Jean-Philippe Lang

Do not show user profile if no visible project or activity (#4129, #3720).

History

#1 - 2009-10-29 00:31 - Lucas Panjer

same problem as #3720, slightly different solution.

#2 - 2009-10-29 19:06 - Jean-Philippe Lang

- Category set to Accounts / authentication
- Status changed from New to Closed
- Resolution set to Duplicate

Kind of dup of #3720. Anyway, this is fixed in r2986.
