

Redmine - Feature #41450

Include attachment filename in "File added" email notification subject

2024-10-08 10:13 - minoura makoto

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	Email notifications	Estimated time:	0.00 hour
Target version:	6.0.0		
Resolution:	Fixed		
Description			
Currently attachments_added (for wiki, documents and files) mail notifications looks like this:			
Subject: [PROJECT] New file			
I think this is too silent. Attached patch adds the (first, if multiple files are added) filename in the subject of the mail.			
Subject: [PROJECT] New file: FILENAME.doc and 3 files			

Associated revisions

Revision 23148 - 2024-10-20 06:46 - Go MAEDA

Include attachment filename in "File added" email notification subject (#41450).

Patch by minoura makoto (user:minoura).

Revision 23149 - 2024-10-20 06:53 - Go MAEDA

Update locales (#41450).

History

#1 - 2024-10-09 01:10 - minoura makoto

Currently attachments\_added (for wiki, documents and files) mail notifications looks like this:

Correction: wiki attachments are not notified, sorry.

#2 - 2024-10-09 10:53 - Holger Just

I don't have a strong opinion on the general validity of this change.

Just one nitpick though: different languages have widely differing pluralization rules, most importantly for small numbers. Thus, rather than a single label\_attachment\_count translation, we should use Rails pluralization features. See <https://guides.rubyonrails.org/i18n.html#pluralization>

An existing example of this could be the label\_x\_projects translation.

#3 - 2024-10-11 02:06 - minoura makoto

- File filename\_in\_subject\_v2.diff added

Thank you for your comment.

Just one nitpick though: different languages have widely differing pluralization rules, ...

You're right. "FILE.pdf and 1 files" is not correct English, and I didn't know that notation. I revised the patch.

#4 - 2024-10-19 04:40 - Go MAEDA

- Target version set to 6.0.0

Setting the target version to 6.0.0.

#5 - 2024-10-20 06:51 - Go MAEDA

- Subject changed from Show the attachment filename in notification Email subject to Include attachment filename in "File added" email notification subject
- Status changed from New to Resolved
- Assignee set to Go MAEDA
- Resolution set to Fixed

I have committed the patch in [r23148](#). Thank you for your contribution.

I made a change to the Japanese translation of "label\_attachment\_count" for ":other" count, updating it from "%count%" to "%count%". This change follows the Japanese government's recommendation to use the kana "件" instead of the kanji "件" in this context, particularly in official documents, as described in Cabinet public notice [0000000000000000](#) issued in 2010.

#6 - 2024-10-20 06:53 - Go MAEDA

- Status changed from Resolved to Closed

#7 - 2024-10-21 11:28 - minoura makoto

Thank you, Maeda-san!
