Description

When deleting the user the user should be replaced with anonymous user.
The Author is replaces with anonymous but the assignee is blanked out instead of being replaces with anonymous.

Redmine never allows to assign an issue to the Anonymous user; only real users (or groups) can be assignees.

Thus, when deleting a user who is an assignee, the next best thing is to delete the assignee, thus indicating that the issue is not assigned to anyone. I believe this is mostly equivalent to being assigned to no-one, i.e. Anonymous.
