Category:	UI	Estimated time:	0.00 hour
Target version:	6.0.2	Affected version:	
Resolution:	Fixed		
Description			
There's also the checkmark showing the current project. It's different from the normal checkmark already so I think it's not that big of a deal. clipboard-202411081112-ztkcf.png

I've attached a patch that replaces the legacy search magnifier in project jump and also in the search file on mobile view.

I've confirmed that the quick-jump menu icon has been updated to an SVG using the patch attached in [#note-4](#). Additionally, I noticed that the legacy search magnifier icon still appears in the parent_issue field on the Issue edit screen, so I created an additional patch to update it to an SVG as well.

As reported in Issue #41877, the Add 'Related Issue' icon also appears to be an old icon.

I suggest an additional patch to be added to #note-5.

Takenori TAKAKI: This issue (use of legacy search magnifier icon) seems to be affecting several more places within the UI as well:

- 1. user/group search in 'Add watchers dialog'
- 2. user/group search in 'New Member dialog'
- 3. issue search in 'Add related issue to changeset form'

1 and 2 can be seen in the screenshots you have posted in #41853#note-1 and 3 is based on the actual code itself (source:trunk/app/views/repositories/_related_issues.html.erb@23352#L35).
Most likely there are more throughout the whole system..

#8 - 2024-12-09 01:13 - Marius BĂLTEANU

- Subject changed from The search icon in the quick-jump menu still shows the old icon. to Replace search and magnifier icons with SVG icon
- Status changed from New to Resolved
- Resolution set to Fixed

For now I've changed only from CSS the background image for autocomplete fields to the new SVG icon. The proper implementation requires to many changes.
