Replaced the legacy icons in [r23553](#) for the following actions:

- folder-open
- added
- modified
- copied
- renamed
- deleted

In scm.css, there are some additional CSS classes that I'm note sure that are used anymore:

- li.change
- li.change.folder.change-A
- li.change.folder.change-M

I tried to keep the existing look and feel, but I think we can improve the icons by switching in a future release to "circle-lettter-<action>" icons (ex: circle-letter-m).

Please let me know if I missed anything.
