Target version:				

Description

Since Redmine supports SQLite3, I believe tests should be run in CI. This patch adds CI tests for SQLite3.

Additionally, the following issues are addressed:

- Remove a duplicate execution of bin/rails test:autoload.
- Update ruby/setup-ruby to always use the latest v1 version instead of pinning it to a specific version.

CI passes with this patch applied:
https://github.com/hidakatsuya/redmine/actions/runs/12279612346
