Category:	UI		**Estimated time:**	0.00 hour
Target version:	6.0.3			
Resolution:	Fixed		**Affected version:**	6.0.2

Description

Similar to #41873, the member table layout breaks due to the .icon class on td elements.

Alternate Theme (before applying the patch):
  alternate-theme-before-applying-patch.png

The attached patch resolves this issue by wrapping the content with a span element and applying the .icon class to the span element, as done in #41873. Additionally, the .icon-user (group, groupnonmember, groupanonymous) classes, which are no longer needed, are removed.

Alternate theme (after applying the patch):
