Description			
I cannot add a screenshot (with past from clipboard) when edit a saved comment. This is very annoying because I need to paste the screenshot in a new created comment.

History

#1 - 2025-04-06 13:00 - Marius BĂLTEANU

- Status changed from New to Confirmed
- Assignee set to Marius BĂLTEANU
- Target version set to Candidate for next minor release

#2 - 2025-04-06 13:17 - Marius BĂLTEANU

- Tracker changed from Defect to Feature
- Status changed from Confirmed to New
- Target version deleted (Candidate for next minor release)

Looking in the code to debug this issue, I would say it's more of a feature request than a defect because the form to edit an existing note doesn't have a file input.

#3 - 2025-04-06 13:19 - Marius BĂLTEANU

- Assignee deleted (Marius BĂLTEANU)

It can be an improvement to allow uploading images without necessary displaying the file upload input.
