History

#1 - 2025-05-06 04:09 - Go MAEDA

- Target version set to Candidate for next major release

#2 - 2025-05-07 12:06 - Go MAEDA

- File mention-trilogy-in-example-config.patch added

Thank you for the patch to add support for the Trilogy adapter.

I've also attached an additional patch to update config/database.yml.example so that Redmine users can see that trilogy is available as an alternative to mysql2.

#3 - 2025-05-08 01:32 - Go MAEDA

- Category set to Database
- Target version changed from Candidate for next major release to 6.1.0

Setting the target version to 6.1.0.
