Target version:			
Description Issues with progress bar custom value "Progress" are exported as below. <pre>#,Tracker,Status,Priority,Subject,Assignee,% Done,Progress 77,,,,Issue1,Redmine Admin,10,20%</pre> When I try to import this CSV file, validation error occurred. <pre>1 out of 1 items could not be imported: Position Message 1 Progress is not a number</pre> I think progress bar custom value should be exported as integer like done ratio.
