Redmine - Defect #42786

The style of the "Clear" button breaks inside the flyout menu

2025-05-30 04:33 - Mizuki ISHIKAWA
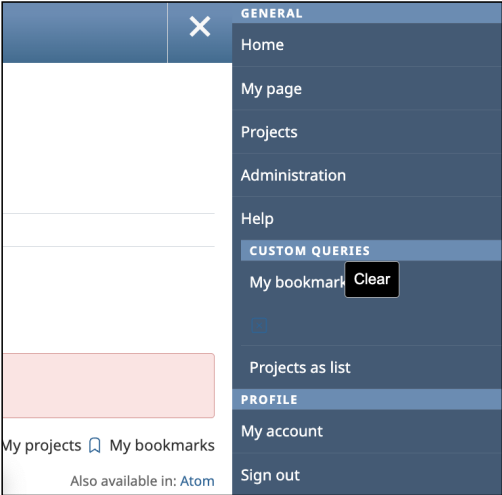

Status:	Confirmed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	UI		**Estimated time:**	0.00 hour
Target version:	6.0.6			
Resolution:			**Affected version:**	

Description

There are currently several issues with the display of custom queries inside the flyout menu (shown on narrow screens):

- The "Clear" button appears on a separate line.
- The "Clear" button is blue and hard to see.
- The button is visually misaligned compared to surrounding elements.

Screenshot:

Attached is a patch that addresses these issues.

- Applies the same flex layout to .queries li as used for .watchers li, fixing the line break issue of the "Clear" button.
- Ensures consistent borders after applying flex, by manually restoring border behavior where needed.
- Sets stroke: white for icons to improve visibility against the dark background.
- Adjusts the overall horizontal offset of the #sidebar-wrapper using margin-left: -8px to fix the right shift.

History

#1 - 2025-05-30 06:07 - Go MAEDA

- Subject changed from The style of the "Clear" button breaks inside the flyout menu. to The style of the "Clear" button breaks inside the flyout menu

- Status changed from New to Confirmed

- Target version set to 6.0.6

Setting the target version to 6.0.6.
