Description

It would be fantastic if Redmine could take over part of project management work.
What I particularly mean by this issue is:
1)An ability to store working hours for each team member (for each day of the week)
2)Graphical representation (a calendar) of them

Is duplicate of Redmine - Feature #2370: Vacations overview	**New**	**2008-12-22**

- Status changed from New to Closed

- Resolution set to Duplicate

I think it can be closed as dup of #2370.
