**Description**

We have Redmine in our Company and many of the employees use IE 8 for Browsing the Issue Tracker.

If they make a New Ticket and Select a Tracker then the field jumps back to the first selected Tracker.

I think it is a IE 8 Cache Problem, because the Firefox show it correctly.

#### History

##### #1 - 2009-11-27 14:50 - Andrew Chaika

I use Redmine 0.8.x and edge versions from IE8 and don't have described problem

##### #2 - 2009-11-27 16:29 - André Wuttig

We have IE Version 8.0.6001.18702

What Cache Settings do you have?

##### #3 - 2009-12-02 20:03 - Jean-Philippe Lang

Can't reproduce with a fresh IE8.

What Cache Settings do you have?

My IE version is 8.0.6001.18702CO. I don't have any specific Cache Settings. On my work (Windows XP) and at home (Windows Vista & Windows 7) Redmine works perfect with this browser.

Are their any Solutions for this Problem.

The IE didn't work fine with Redmine.

Please make these two Tests:

1. create a ticket and change the tracker twice -> the tracker field jumps back to the first and the fields are empty
2. try to move a ticket to another tracker -> same problem (trackerfield jumps back to the first)!

IE Version 8.0.6001.18702

in Iron and Firefox it works fine!

- Status changed from New to Needs feedback

Any news on this?

Can someone confirm this misbehaviour? I haven't any IE8 to test for.
