

Redmine - Patch #43084

Add a hook to easily customize the issue editing form

2025-08-01 12:23 - Haruka Asakura (Agileware)

Status:	New	Start date:

Target version:			

Description

In the new issue creation form (``app/views/issues/_form.html.erb``), there is always a ``view_issues_form_details_top`` hook available regardless of permissions or the ticket situation.

However, in the edit form (``app/views/issues/_edit.html.erb``), there is no such always-available hook. Therefore, I would like to add a hook that is always usable in the edit form as well.
