Target version:		Affected version:	
Resolution:	Fixed		

Description

It seems that commit [r23945](#) caused the following tests to fail.

Build result from the latest trunk (3a19544):
<https://github.com/redmine/redmine/actions/runs/17526091717/job/49776710919>

Failing tests:

Failure:
IssuesControllerTest#test_create_should_ignore_readonly_fields [test/functional/issues_controller_test.rb:4583]:
Expected "" to be nil.

```
bin/rails test test/functional/issues_controller_test.rb:4548
```

Failure:
IssuesCustomFieldsVisibilityTest#test_index_with_partial_custom_field_visibility [test/functional/issues_custom_fields_visibility_test.rb:243]:
Expected: "ValueA"
Actual: "".
Expected 0 to be >= 1.

```
bin/rails test test/functional/issues_custom_fields_visibility_test.rb:223
```

Failure:
TimelogCustomFieldsVisibilityTest#test_index_with_partial_custom_field_visibility_should_show_visible_custom_fields_only [test/functional/timelog_custom_fields_visibility_test.rb:88]:
ValueA not found in:
(snip)
Expected 0 to be >= 1.

```
bin/rails test test/functional/timelog_custom_fields_visibility_test.rb:65
```

Based on a git bisect, all of these failures appear to be caused by [r23945](#).

As a side note, I think it is important to check CI results for every commit to help maintain stable development.

History

#1 - 2025-09-08 07:56 - Marius BĂLTEANU

- Status changed from New to Confirmed
- Assignee set to Marius BĂLTEANU

Yes, we are aware, we're going to fix the issue these days.

#2 - 2025-09-08 23:57 - Marius BĂLTEANU

- Status changed from Confirmed to Resolved
- Resolution set to Fixed

Tests pass now.

#4 - 2025-09-08 23:59 - Marius BĂLTEANU

- *Status changed from Resolved to Closed*
